

Service begins with

**partnerships**

At GMN, we focus not only on technology, but also on the people behind it. Our service relationships are based on trust, reliability, and genuine partnership.

We believe that only those who understand their customers' challenges can create solutions that really help. That's why we rely on personal connections, open communication, and close collaboration.

Long-term  
partnerships

Individual  
support

Service that  
thinks ahead

We will work with you to design a service tailored to your needs, drawing on our expertise and experience. With maximum plant availability, you can trust you have the right partner by your side.

**True quality can only be achieved through cooperation.**

**GMN**

Precision meets tradition

## Repair

that pays off like on the first day

Trust the original: At our company, GMN spindles are exclusively reconditioned by qualified specialists, with decades of experience, in our own factory using original parts and state-of-the-art technology.

Repair to like-new quality

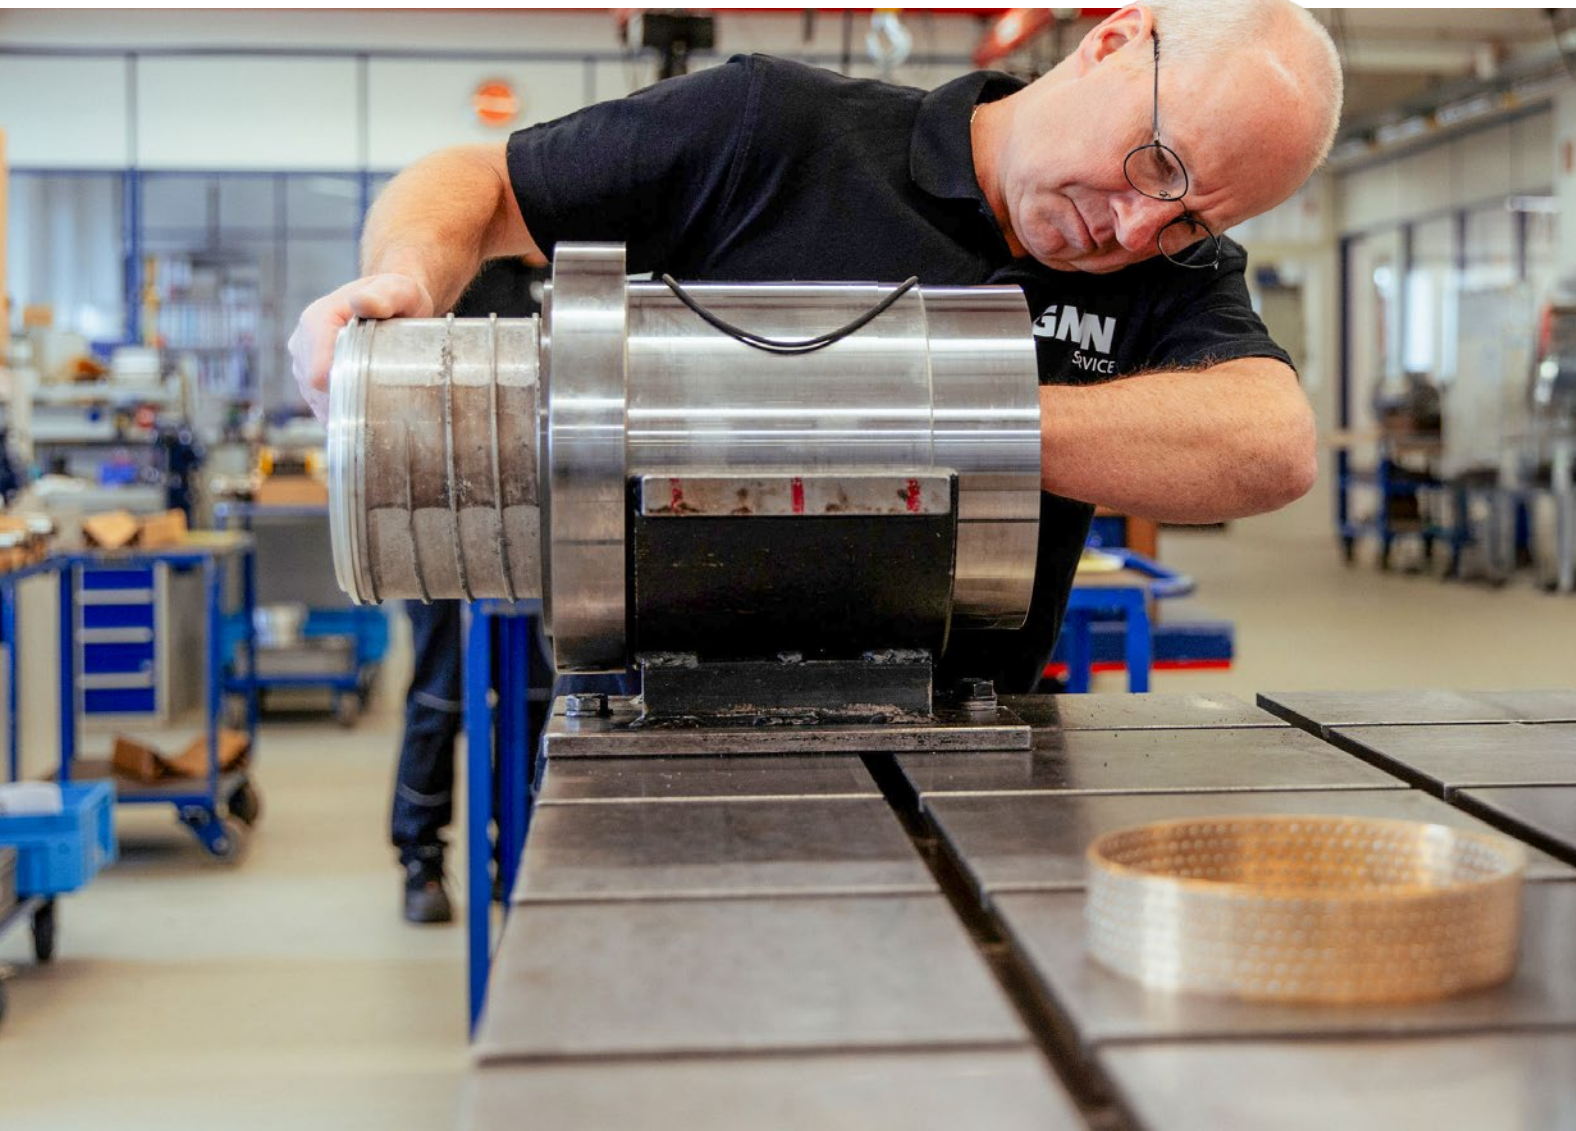

Original Spare parts

Comprehensive service

Each spindle is carefully diagnosed and professionally repaired before undergoing final testing on our GMN test bench to ensure maximum reliability and a long service life. In addition, we offer a wide range of spindles for all types of CNC machine.

**Our quality does not end with the product—it begins with service.**  
**Expertise that comes to you. Worldwide.**

## Spare parts & accessories

Precision down to the smallest detail

Whether you need spare parts or additional accessories, GMN supplies components that are perfectly matched to your spindle—ensuring maximum performance, long service life, and maximum operational reliability.

Original spare parts

Spindle accessories in OEM quality

Consulting by GMN specialists

All parts are manufactured with the same care and depth of production as our spindles themselves—made in Germany, made by GMN.

**Because every detail counts.**

## Customer service

When it matters: GMN on site

Our spindle service does not end at the factory gate—we come to you, worldwide. With trained personnel, the right equipment, and a clear goal: to get your machines back up and running quickly and safely.

Worldwide

Consulting on site

Analysis on the machine

Our experts provide a range of services—including fault analysis, disassembly support, and preventive measures—available worldwide. For you. For your spindle. For maximum availability.

**Expertise that comes to you. Worldwide.**
